WORK EXPERIENCE

LTIMindtree | Coimbatore | Specialist - Software Engineering

MAY 2023-NOW

I worked on the LTIMindtree FSTI Canada project, focusing on Account Creation, Institution Management, Order Management, Organization Management, and Operation Center modules to streamline financial operations and enhance efficiency for Canadian wealth and asset management clients.

Infosys | Chennai | Technology Analyst

Oct 2021 - Apr 2023

I worked on the TKE (ThyssenKrupp Sales Configurator) project, a web application for estimating elevator implementation costs, where I customized input elements, built dynamic forms using reactive forms, and implemented authentication guards to ensure secure user access.

Orion Innovation | Chennai | Software Engineer

Nov 2019 - Oct 2021

I worked on multiple projects including a Case Management solution for sports organizations to maintain game integrity, where I handled project setup, customized input elements, reactive forms, and list generation.

In DTS-REWRITE, a drug testing system for players, I developed modules for Substance, Test Provider, and Test Case with CRUD operations and implemented JWT authentication.

For NFL-REWRITE, a players tribunal system, I built mobile-responsive modules for new and open incidents with role-based access for Admin and Club users.

Vertace Consultants | Chennai | Software Engineer

Jan 2017 - Nov 2019

I worked on Sakthi Apps, a door-delivery service application for departmental stores covering food, grocery, and domestic appliances, where I developed the phone call order module to streamline customer requests. I also contributed to TNIT for the Tamil Nadu IT Department, creating a dynamic website using CMS and managing the project end-to-end. Additionally, I was involved in a Banking Corporate and Consumer app, focusing on GST initiation and payment transaction features, along with customization of customer and bank applications to enhance financial operations.

TECHNICAL INTEREST

- Creating Responsive Website
- React JS
- Vue Js
